

This is a last minute appeal to the people of Ontario & the ^{federal} liberal members they elected to preserve Ontario's financial future & integrity.

What started out as a mere political party maneuver has now turned into a deadly serious matter.

Ontario is about to become the enforcer of the undemocratic principle of allowing a political party at the top to force an entrenched ~~principle~~ constitution on the people below. People who have been denied the right of choice by ballot to choose their own constitution that will

henceforth regularly & permanently govern them. Remember it says in sec 59 "The Constitution is the Supreme law of Canada - and any law inconsistent with it is no longer of any force or effect."

People across Canada and your American neighbours are now beginning to recognize ^{that} ~~what is the~~ ~~this~~ means ^{which} was probably originally ~~an unintentional~~ ~~act~~ on ~~as~~ originally ^{an} unintentional choice by Ontario ~~with an really mean~~ ~~in reality~~ ^{a laughably reality} has now become. In just such a manner did the people of Russia

In such a manner did the people of Russia & China get their constitution - imposed on them politically from the top down. There tanks & guns were used here concealment & the pleasure of temporary political power is being used instead. The results will be the same. This enforcing without being "by the People" can only ~~have~~ ^{give to} for Canada what is has given to them - unfortunate political & economic consequences. They have ^{one of} the lowest standards of living in the world in a rich country. They can't even feed themselves.

It is now clear Tuller will leave

Trudeau deliberately gave them
a proper democratic excuse to do so.
He alienated them with his constitution
after they had chosen to stay in Canada.
Doubtless it becomes clearer that all
of Western Canada will sooner or later
leave they have been so alienated by
his actions, insults & indifference.
Fortunately for them these provinces
now have the financial means to do so
& have lost the desire to be loyal
to this strange new country which
will no longer under its constitution
be the land they loved, fought
for & supported. A country whose

As persons of goodwill can't Ontarians
 rise up while there is still time &
 assert your own judgment?

The polls out West & the firm
 determined opposition of 8 out of 10
 Premiers who represent 65% of all
 Canadian people show you what
 the future holds for Ontario. Already out
 West Housewives are organizing to
 boycott Ontario's food, clothes & cars & half
 the Canadian oil rigs have already
 permanently left for the U.S., taking
 forever with them their necessary
 expertise as well. ^{They} leaving undeveloped
 in the ground the oil that should
 be in your tanks & may never get there now.

It. Referendums are for undemocratic
debate - the election forum are the
democratic way. Also there must
be time for it to obtain the
agreement of the Premiers no other
way can Canada operate as an
efficient force moving in one
direction together.

This unseemly concealment
misunderstanding and haste is totally
unnecessary and will prove disastrous
for us all. It is about to force Ontario
to "go it alone" will it not yet
understood and unvoiced on
constitution. Why the haste? For
14 years Canada has grown strong
& prosperous under our present laws.
Suddenly because Mr Trudeau wants
it done should you without

understanding abandon all that?

✓ Demand a delay. Ontario brought
the constitution about through
their representatives now you are
only the people who can stop it

Ruth Gorman
