Subject: CABINET APPROVES PARLBY CREEK-BUFFALO LAKE PROJECT

Alberta Environment Minister Ralph Klein has announced Cabinet approval of the Parlby Creek - Buffalo Lake Water Management Project Phase V.

"In this fiscal year," stated Mr. Klein, "detailed engineering design and some initial construction is slated to begin."

Cabinet approval results from the recent decision of the Parlby Creek - Buffalo Lake Water Management Review Board Report released June 24th, 1991. Cabinet accepted recommendations of the report and are proceeding to establish a management team as outlined within the report.

The Review Board suggested that, "The team should consist of representatives of the proponent and major stakeholders who can work in partnership to reflect the multiple use nature of the project."
