Dear Minister,

A Provincial Panel reviewing the Parlbay Creek-Buffalo Lake Development Project in Alberta is due to release its report very soon. You are in receipt of correspondence from Martha Kostuch of Rocky Mountain House (dated May 21/91) urging you to initiate a full federal EARP (Environmental Assessment and Review) of this project.

As you know, a report by Environmental Management Associates (prepared for the Government of Alberta) indicates Fisheries & Fish Habitat will be impacted.

I would appreciate your response to Martha Kostuch and your assurance that an EARP will be called. A status report on this project would be helpful.

Sincerely,

[Signature]
Jim Fulton, MP
